👤 Profile

I have a deep understanding of many technical subjects. I am highly skilled in building applications. I am a driven individual with the ability to adapt to any situation and proven potential to grow self and other.I love to be creative and inventive.

💼 Work Experience

📅 08/2023 – PRESENT   📍 LAGOS, NIGERIA
Software and web developer
F.5 Labs

While Leveraging my technical skills on F.5 Lab, I have been capable of solving various web development challenges, including:

1. Responsive E-commerce Platform for our client
   - Developed a fully responsive e-commerce website using React.js for the front-end and Node.js/Express for the back-end

2. Content Management System (CMS) Customization
   - Customized WordPress themes and developed plugins to meet specific client needs
   - Integrated third-party APIs to extend WordPress functionality

4. RESTful API Development
   - Designed and implemented RESTful APIs using Node.js and Express.js
   - Created comprehensive API documentation and implemented security best practices

5. Single Page Application (SPA) Dashboard
   - Built a data visualization dashboard using React.js
   - Integrated real-time data updates and implemented user-specific views

6. Progressive Web Application (PWA)
   - Implemented push notifications and background sync

💼 Work Experience

7. Portfolio Website
   - Designed and developed a personal portfolio website showcasing projects and skills
   - Optimized for performance and SEO

8. Automated Testing Suite
   - Set up continuous integration/continuous deployment (CI/CD) pipelines

9. Legacy System Migration
   - Improved performance and user experience while maintaining existing functionality

10. Accessibility Compliance
    - Implemented keyboard navigation and screen reader compatibility

These projects demonstrate my ability to apply my skills in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and WordPress to create robust, efficient, and user-friendly web solutions.
