

OLADIPUPO BANKOLE

Software Engineer

+234-8184-2336 @ oladipupobankole24@gmail.com Portfolio in ladibanks1 Github Lagos, Nigeria

SUMMARY

Software Engineer experienced in building fast, scalable web, mobile, and backend applications using React, Next.js, React Native, NestJS, Express.js, SQL, NoSQL, and Tailwind CSS. Skilled in RESTful API design, secure authentication, full-stack deployment on platforms like Render and Vercel, and leveraging AI tools to enhance application functionality. Passionate about writing clean, efficient code, optimizing performance, and collaborating in Agile teams to deliver impactful software.

EXPERIENCE

Software Developer *Freelance Remote*
Arc.dev

Mar 2025 - Present Lagos, Nigeria

- Built and launched a scalable gift card trading platform with real-time data flow and automated onboarding/admin tools, reducing manual workflows by 50% and attracting 100+ early users within the first 30 days.
- Engineered and deployed backend architecture with CI/CD pipelines (Render & Vercel), ensuring zero-downtime updates and accelerating feature delivery by 40%.

Full-Stack Developer *Full-time Remote*
F.5 Labs

Sep 2023 - Present London, UK

- Built and deployed a responsive e-commerce platform with optimized CMS plugins and third-party API integrations, improving mobile usability, boosting retention by 20%, and cutting client delivery time by 30%.
- Designed and implemented RESTful APIs using Express.js and MongoDB, enhancing system scalability and achieving a 20% performance improvement.

Full-Stack Developer *Internship On-Site*
GoMyCode

Nov 2024 - Jan 2025 Lagos, Nigeria

- Developed key Patient Hub features with React and Node.js, streamlining appointment booking, reducing task time by 25%, and enhancing responsive design across 5 devices to increase engagement by 25%.
- Engineered secure APIs with JWT authentication, improving login success rates and strengthening platform security by 35%.

CERTIFICATION

Responsive Web Design
FreeCodeCamp

JavaScript Data Structures And Algorithms
FreeCodeCamp

LANGUAGES

JavaScript TypeScript Python

SKILLS

JavaScript TypeScript Python

Responsive Design CSS

Tailwindcss Bootstrap React

NextJS React Native Redux

API Design NodeJS ExpressJS

NestJS FastAPI RESTAPI

Database Design MongoDB

PostgreSQL

Swagger Postman

Team Collaboration Adaptability

Problem Solving Critical Thinking

KEY ACHIEVEMENTS

Patient Hub Project
Successfully built a health platform using REST APIs and JWT, unifying records and virtual care to improve admin efficiency significantly

Zlopay Project
Created a full-stack gift card trading platform that enhanced transaction speed by integrating secure payments and a responsive UI
